Cases Dismissed

As stated last week Wm. Ross, the tailor, was arrested on complaint of J. D. Mason of petty larceny in stealing a sum of money, about \$22, which was in the pants pocket at the time, the pants and other articles of clothing were thrown out of the window and captured by Ross at the denouncement of the escapade at the Ross residence on Stump street, on Sunday, August 1. Ross had several months ago started a civil suit against Mason for false and malicious imprisonment arising out of the purloining of a deed to certain lots in Stockton the property of Mason. Both cases were dismissed last Saturday. Ross has concluded to leave town, and is making preparations to that end. As soon as he has disposed of his effects, tailoring stock, etc., he will take his departure to what point he is at present undecided. While the new tailor has had a stormy time of it since his advent in Jackson, we can say that in all business dealings with him we have found him strictly straightforward and honorable. He has always been anxious to pay his bills when due, and true to any obligation of a monetary character that he has entered into. The report that he was required to leave town as a condition of the dismissal of the criminal suit is unfounded. He is at liberty to stay if he wishes to, but he decided to leave, and seek a new field of business.

Bazaar and Supper.

The Ladies Aid of the Methodist Church will have their bazaar and supper at the Odd Fellows banquet hall on Thursday Aug. 19, supper will be served at any time during the evening.

There will be many fancy and useful articles for sale, also ice cream, candy, etc. Come and have a good time. Don't forget the date Aug. 19

The Old Mail System of Plymouth

The Jackson postmaster received notice from Washington early this week that the proposed new contract for the extension of the mail line from Martell clear through to Plymouth, had been rescinded or cancelled. The contract had been offered to the Amador Central Railroad, which has the old contract for carrying mail as far as Amador City, to extend the service to Plymouth, but the company refused to accept. The government has therefore fallen back on the old service, and Plymouth is dependent upon the Carbondale line for mail matter as heretofore.

A Reliable School.

Atkinson's Sacramento Business College founded 1873, after an occupancy of two stories of the City Library for fifteen years and the upper story of Hale's Block for twenty-two years, is now permanently located in its new home at Thirtieth and J. Streets. It has the best appointed Commercial School Apartments to be found in the State, especially designed and completed for its own use. Its rooms and offices are spacious and commodious, with abundance of light and ventilation.

A Faithful Friend.

"I have used Chamberlain's Colic, Cholera and Diarrhoea Remedy since it was first introduced to the public in 1872, and have never found one instance where a cure was not speedily effected by its use. I have been a commercial traveler for eighteen years, and never start out on a trip without this, my faithful friend," says H. S. Nichols of Oakland, Ind. Ter. When a man has used a remedy for thirty-five years he knows its value and is competent to speak of it. For sale by Jackson Drug Store, Spagnoli Prop.

The State Fair.

An advertisement of the state fair appears in another column. It is the intention of the management of this attraction to make it the most attractive that has ever been held in the state. A big list of premiums has been offered. The fair is in capable hands, under the able management of J. A. Filber, as secretary. Everybody that possibly can should make an effort to visit Sacramento during the fair, from August 28 to September 4.

The Crime of Idleness.

Idleness means trouble for any one. Its same with a lazy liver. It causes constipation, headache, jaundice, sallow complexion, pimples and blotches, loss of appetite, nausea, but Dr. King's New Life Pills soon banish liver troubles and build up your health. 25c. at Jackson Drug Store, Spagnoli Prop.

A Heavy Fine

The case of petty larceny against Henry Weil was settled last Monday. That was the day when the case was to be set for trial, as it was at first understood that the accused intended to have a jury trial. He engaged D. B. Spagnoli as attorney to look after his interests. On Monday when he was required to plead, he appeared and entered a plea of guilty.

City Recorder W. S. Thompson thereupon fined him \$250, which the defendant paid. Henry Weil says he had no idea that the fine would be so steep; that he would have stood trial rather than plead guilty, had he had the least intimation of such an outcome. He says he took the lumber, but with no intention of stealing it; that he told the one who was hauling it that he wanted some lumber to build a fence, that the owner was away at the time and so without any further arrangement he picked out what he wanted, with the intention of settling for it, when the owner returned to Jackson. After fully considering the matter he decided to plead guilty as the cheapest way out of the trouble; that if he had fought the case it would probably have cost him several times the amount of the fine before he got through with it.

The fourth of July celebration committee have built a small woodshed for the Bank of Amador, in place of the brick structure which was torn down to make room for the dancing platform. The building is of lumber, and about 10 feet nearer the bank than the former building, so that it will not be in the way in the event of another platform being erected on some future occasion.

Most disgusting skin eruptions, scrofula, pimples, arshes, etc., are due to impure blood. Burdock Blood Bitters is a cleansing blood tonic. Makes you clear-eyed, clear-brained, clear-skinned.

Gold Brick Swindlers.

This city had an experience the past week in the gold-brick swindle line. On Saturday last two strangers struck camp. They gave their names as J. D. Lilly and John Reese. They were evidently confederates, operating together to fleece the public. After partaking of a meal outside the city proper, they came into town in search of a victim. They ran up against Charley Tam. One of them, Lilly, showed him what purported to be a scarf pin with a gold nugget containing if genuine at least \$6 in gold forming the head of it. He palmed it off on Tam for \$7.10 in clothing. At this juncture the partner appeared on the scene, and offered a similar pin for \$4 in corn, and this offer was accepted and the money paid.

Wm. Tam was told of the bargain as soon as he appeared at the store, and doubted the gold part of the story. So the pins were taken to J. H. Langhorst for testing, and pronounced to be bogus. The pair were arrested and taken before the city recorder, and in default of bail were put in jail. Lilly concluded to stand a jury trial, and the case came off Tuesday morning, the defendant pleading his own case. The jury returned a verdict of guilty as charged.

The following named persons were the jury that tried the case: Antone Rickett, J. H. Griffin, H. E. Kay, M. H. McGary, P. Cuneo, F. Hanley, Drew Caminetti, Ben Gilbert, Ben G. West, G. Bianchi, C. M. Meek, J. F. Mello and J. Barton.

On Wednesday the court sentenced Lilly to thirty days in the county jail, without the alternative of fine. John Reese, his partner in the affair, thereupon concluded to plead guilty, and was awarded 25 days in jail.

Chronic Diarrhoea Relieved.

Mr Edward E. Henry, with the United States Express Co., Chicago Superintendent, Mr. Quick, handed me a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy some time ago to check an attack on the old chronic diarrhoea. I have used it since that time and cured many of our trains who have been sick. I am an old soldier who served with Rutherford B. Hayes and William McKinley four years in the 23d Ohio Regiment, and have no ailment except chronic diarrhoea, which this remedy stops at once. For sale by Jackson Drug Store, Spagnoli Prop.

Unclaimed Letters.

To Quiet Title To Valuable Placer Mine.

The case of Frank Garibaldi and Frank Devencenzi against August Grillo, John B. Grillo and James Grillo, sr., which has been on trial most of the time in the superior court of this county, since the 13th of July, was concluded last Friday. It is an action to quiet title to a valuable placer mine, situated in Volcano mining district, about one-half mile north of the town of Volcano. The plaintiffs claim that the ground was vacant and unoccupied mineral land in August, 1908, at the time they filed a placer mining location on the same, and contended throughout the trial that they had perfected a valid location, which complied with all the mining laws and regulations, and were entitled to a decree of court in their favor.

The defendants claimed to have acquired twenty (20) acres of the property in dispute by virtue of deed from M. L. Christensen in 1902, and by virtue of having held and worked the claim continuously for over five years immediately preceding the commencement of the action. The evidence offered at the trial of the case showed that the deed of defendant was defective, but it was admitted in evidence by Judge Wood, only for the purpose of establishing a color of title.

The defendants have never done any work on the surface of the claim where it could have been seen by intending prospectors, but claim to have done the necessary annual assessment work by a tunnel, which was driven into the claim from adjoining lands owned by them. No proof of annual labor was filed by the defendants prior to commencement of the action.

The case was tried by the court without a jury. A. Caminetti and Robert C. Bole were attorneys for plaintiff, and Wm. J. McGee and C. P. Vicini attorneys for defendants.

Will Close Down Temporarily.

It is reported that the lone fire-brick-making plant will be shut down after this week for an indefinite period. This is not on account of the industry proving non-productive, by any means. The plant has been running very successfully, and has proved a profitable venture for those who invested their money therein. They have turned out something like 11000 per day, and have about 300,000 on hand. The particular matter that has induced the manager to close the works temporarily is the placing of large quantity of fire brick on the market by the Livermore plant, which is a part of the assets of the California Safe Deposit Company, now in process of liquidation. This company has nearly two million brick on hand, and intend to dispose of the same at a great sacrifice. They are said to be offering these brick at one half price, and in view of this slump it was deemed advisable by the lone people to close down until the market is reestablished.

Baseball Notes

At the Zeila park last Sunday a Sacramento team, known as the Panama Murphy Independents, tried conclusions with the local players, and scored an easy victory. The Jackson players did not appear to be in their usual form, while the capital city boys were right on the spot. At the close of the game the score stood 6 to 1 in favor of Sacramento.

The same day an improvised nine from Jackson went to lone in one of the autos of the local garage and played a game against an improvised team from that burg. The Jackson boys seem to have had a soft snap, the valleyites not being in it at any stage of the proceedings. At the end of the seventh innings the score stood 15 to 4, with lone at the short end. Seeing the hopelessness of the contest it was decided to quit.

'Twas a Glorious Victory.

There's rejoicing in Fedora, Tenn. A man's life has been saved, and now Dr. King's New Discovery is the talk of the town for curing C. V. Pepper of deadly lung hemorrhages. "I could not work nor get about, he writes, 'and the doctors did me no good, but, after using Dr. King's New Discovery three weeks, I feel like a new man, and can do good work again.' For weak, sore or diseased lungs, Coughs and Colds, Hemorrhages, Hay Fever, LaGrippe, Asthma or any Bronchial affection it stands unrivaled. Price 50c and \$1.00. Trial bottle free. Sold and guaranteed by Jackson Drug Store, Spagnoli Prop.

MINING NOTES.

Kennedy.—At this mine a new cable was put into commission at the east shaft this week. The cable is of plow steel, 1½ inches in diameter. The old cable has been in use for two years, and will be used at north shaft for a considerable time longer, the strain at that shaft, owing to the lesser depth, not being so great as at the main shaft. On last Sunday the sinking operations had reached a depth of 3305 feet, and still sinking.

South Eureka.—At this mine they are making extensive additions and improvements of a permanent character, indicating that in the judgment of those in control the mine has at last entered upon a stage of stable prosperity. They will install an electric power hoist. The saw mill of the old Oneida company has been purchased, and will be moved at once, and placed in commission. The mine gives employment to over 100 men. The clean up of last month is reported to have almost equaled the generous yield of the preceding month, which was over \$40,000.

Bunker Hill.—It is reported that this mine had a record breaking clean-up for the month of July. The yield of free gold and sulphurets was, according to reports, some over \$25,000. This for a 20 stamp mill is something out of the ordinary, being \$1250 per stamp. The net proceeds of the month were about \$13,000. There is not another mine on the lode operating to-day that is making such a flattering showing. And it is proper to say that no gauging of the mine was necessary to accomplish this output. The Bunker Hill is all right, and promises even bigger things yet in store.

Argonaut.—The incline shaft of this mine has reached a depth of 3217 feet. This week a new cable was installed in each compartment of the shaft. The aggregate length of the two cables is 8400 feet. They are made of plow steel, 1½ inches in diameter. One cable was installed August 8, and the other on the 10th. They are said to be the longest cables used in mining in the state. Each cable weighs 9900 pounds.

Children Cry FOR FLETCHER'S CASTORIA

A "Noble" Stand.

The Ledger is frequently asked to suppress items of news. Sometimes the request refers to matters of record. And very often the argument is used that the publisher of the Dispatch has agreed not to publish the item provided the Ledger will agree to adopt the same course. A request of this kind came to us this week with the further statement that the interested party would bring the written agreement of the Dispatch to that effect if necessary. We invariably turn down all such requests especially when coupled with the argument that so and so will suppress the news if the Ledger will do likewise. We have a supreme contempt for the editorial policy that is dictated in that fashion. The Ledger is governed entirely upon the judgment of its editor as to what matter is proper for publication, and its duty to its readers and the public. Never since we have been identified with the newspaper business have we ever intimated that we would be guided by the course of a cotemporary in the suppression of any items of public interest. We have always managed to "paddle our own canoe" regardless of the "silly Willie" course of our cotemporaries. And the newspaper man that hasn't sufficient gumption to rely upon his own judgment or who lacks the manliness to act his own part, always playing to shift the responsibility of his own course upon the shoulders of a cotemporary, is about as contemptible a specimen of the journalist fraternity that we have run up against in a career of nearly 50 years in the profession. We want to say right here once for all that our cotemporary can save himself the trouble of referring such matters up to the Ledger. He can take it for granted that any item worthy of publication will be published in the columns of this paper if we hear of it.

Phears' Express.

Ring up Sam Phear for prompt delivery of trunks, baggage and express packages. Rates reasonable. Leave orders with P. L. Cassinelli, phone Main 35; and Express office, Main 34; residence Black 374.

How to Clean a White Belt.

To clean a white belt make a rather thick paste of cream of tartar and cold water and rub the belt well with it. Leave for an hour and then rub with a mixture of alum and fuller's earth in equal parts. Next day brush the belt with a clean soft brush till all the powder is removed. Rub again with some coarse oatmeal to which a little powdered whiting has been added.

How to Brighten Lamp Burners.

After using lamp burners for some time they become dirty and dingy. Put them in a kettle and cover with boiling water. Add a tablespoonful or so of sal soda and a lump of lye soap. Take off and dry the burners, then brighten them up by the use of powdered charcoal or brick dust.

FRIDAY.....AUGUST 13, 1909

Editorial Column,

TARIFF BILL PASSED.

The tariff bill has finally passed congress. It is fairly satisfactory, both from a party and national standpoint, It will not please every interest, No changes ever effected in a tariff schedule were entirely satisfactory to all concerned. Every change of customs duty is designed to accomplish a certain definite purpose—either an increased revenue for the government on the one hand, or a reduction in the price of articles to the consumer or protection of the wages of the workingmen on the other. The Dingley tariff bill has been in operation for more than a decade. The unexampled prosperity of every part of the Union during that period is ample proof of the wisdom displayed in the framing of that bill. But no tariff schedule, however wisely framed to meet the conditions at the time, can remain a fixity. A young nation must necessarily outgrow any tariff schedule, just as a child will outgrow the garments of infancy. The republican party believed that the time had arrived for a revision of the tariff downward, and so stated in its last national platform. Taft was elected on that policy, and he has exerted the great influence of his office in favor of a strict compliance with the promises made in the platform. And the reform is fairly exemplified in the tariff bill as finally passed. In practice it may not effect any material reduction in the price of articles to the consumer. But the tendency is in that direction. It shows the confidence of the vast commercial interests in the republican party to deal with this complicated question in a broad and statesmanlike manner, that throughout the long struggle before the final adjustment, there has been no financial flurry to speak of. The wheels of industry have moved along without any perceptible jar. The cattle men of the great western states have been hit somewhat by the placing of hides upon the free list. This, however, is not likely to seriously affect the cattle business, although it does look like a departure from the republican policy of protection of all home industries. As a whole the new tariff bill will prove fully as beneficial and adapted to the existing conditions of the country, as the Dingley tariff has proved in its day.

THE IONE ROAD.

Much complaint is heard on account of the poor condition of the wagon road from Jackson to Ione. While the advent of the railroad to Martell has relieved that thoroughfare from the major portion of the heavy traffic that formerly passed over it, still that road is now, and will continue to be, one of the main arteries of the county. It is the only available means the farmers of the valley section have of transporting their products to Jackson and Sutter Creek. The railroad extension has had no appreciable effect in diminishing the importance of this road to the producers of Ione and Jackson valleys. They need it in their business as much as they ever did. For this reason it should be kept in fair travelable condition. And there is little excuse for its not being so kept. The Ledger takes no stock in the views of extremists, who want smooth roads throughout the county such as delight the auto enthusiasts. That is an idea that belongs to dreamland. We are not in a position to either construct or maintain ideal roads of that nature, But the revenue for road purposes ought to be, if properly handled, ample to insure a much better condition of our highways than we have been favored with--pardon the expression--for many years past. We are glad that residents of the valleys are agitating for improvement of the Ione wagon road. They should keep up the movement, not so much for more money to be expended, but rather for better results from the funds poured into our miserable roads year after year,

One of the talesman in the Calhoun case said his sympathies were with the defendant because he had been so often convicted by the press. The unscrupulous and malevolent tactics of the Call and Bulletin have done more to shape public opinion in behalf of Calhoun than anything else.

Prudence and Zabel.

By M. QUAD.

[Copyright, 1909, by T. C. McClure.]

Prudence Smith and Zabel Winters met at spelling school and were impressed with each other. Zabel would have married her if the Widow Penrose hadn't mixed in. She wanted the young man for herself, and in awesome whispers she imparted the information that Prudence Smith was knockkneed and would never be able to stand at a washtub or run up and down the cellar stairs. The young man was at once impressed. He ceased to speak Prudence on Sunday nights and assure her that he longed to jump over precipices for her sake, and of course she resented it. She went about with her chin in the air and asked for no explanations, and so relations were strained for many long months. Then Zabel's mother found out what was the matter with him and set him right. The widow had lied. Zabel made it up with the girl. The doves came back again and turtled, a new date was set for the marriage, and Farmer Smith reached out his horny hand for a shake and said:

"Zabel, got durn your buttons, you're gittin' the real thing, and you orter be the happiest man in Woodchuck county."

Zabel was for about two weeks. Then Deacon Gray, who was a widower and wanted Prudence for his second wife, gave up some information about Zabel. When he had sworn her to the most awful secrecy he confessed that the young man had a live frog in his stomach and would probably go mad within two years and cut the throat of his wife if he had one. The frog had jumped down Zabel's throat one day when he was drinking from the horse pond, and, though thousands of inducements had been held out to him, nothing could prevail upon him to jump out.

Well, where is the young girl, no matter how her heart tunks with love, who is going to marry a young man with a live and growing frog in his stomach? She can't be found. She wasn't found in this case. Prudence Smith cooled off on Zabel Winters, and he went about with his chin in the air and was too proud to ask for an explanation. It was a year before one came. Then a lightning rod man stayed overnight at Smith's, and after supper he got to talking about frogs. Seeing he was posted on the subject. Prudence made bold to ask him if he had ever heard of a frog taking up inside quarters, and he answered that such a thing was absolutely impossible and beyond belief. Zabel Winters had probably swallowed a small fish and the fish might be growing, but if left alone he could in time be fished for and caught. That settled the frog question, and Zabel was invited to come around and make up. He got a hustle on him, and the turtledoves sang soft and low, a new date was appointed, and Farmer Smith stopped chopping wood long enough to extend a hand and say:

"Zabel, you got durned idiot, don't you know when you've got a good thing? Don't fool around any more."

Zabel didn't want to, but before it had been decided which minister should marry them old Mrs. Snyder struck his trail. She was too old to marry, but not too old to utter a warning for the benefit of a young man who had put in a day hoeing her garden and refused to take pay for it. She told him right straight out that Prudence Smith snored like a steam engine, that she had six toes on her right foot and only four on her left, that she had had St. Vitus' dance when a baby and that it was sure to come back on her some day. It might not be a year after marriage that Zabel would come up from the cornfield some afternoon and find her dancing all around the dooryard and kicking as high as a fence. That settled Zabel. He wanted Prudence, but he didn't want a dancing dervish. More coldness, more strained relations. It was a full year before old Mrs. Snyder was proved a liar, and it took three months longer to make up and set another date. Things had run smoothly to within a fortnight of the date when a tin peddler came along and bought a sheepskin of Zabel and then told him that Prudence Smith was deaf in the right ear, nearsighted in both eyes and would be tongue tied before she was two years older. Zabel hadn't noticed the deafness or blindness, but he believed in tin peddlers and at once grew frigid. Result, another year lost.

Fate was still in the game, however, and when everybody, including the two principals, had made up their minds that there would be no marriage she came loafing around to do her duty. Farmer Smith and his daughter were in the village one day buying calico and brown sugar when Zabel Winters appeared. He had eggs to sell for hickory shirting. The lovers were brought face to face, but they didn't speak. They thought of frogs and St. Vitus' dance and six toed feet and were turning away when Father Smith reached out one hand for his daughter and the other for Zabel and said:

"Say, are you two got durned idiots?"

"Um!" replied Prudence.

"Um!" replied Zabel.

"If you wasn't you'd come along with me to the preacher and git married and hev this tarnashun thing settled to once and fur good and all."

Prudence looked at Zabel.

Zabel looked at Prudence.

Then they smiled and edged up nearer each other, and an hour later they were man and wife.

New subscribers are those who were not taking this paper July 2, 1909. Contest opens July 2, 1909. Contest closes Aug. 19, 1909.

DIVISION OF DISTRICTS.

In order that the Competition for prizes may be evenly divided, the field of the Ledger has been divided into Three Districts, as follows:

Dist. No. 1—Township 1, including all of the City of Jackson.
Dist. No. 2—Townships 2 and 4 including Lone, Sutter Creek Amador.
Dist. No. 3—Townships 3 and 5.

DOUBLE VOTE FOR ONE WEEK

A Chance to Secure a Big Block of Votes in Ledger Contest.

A Big Wind-up

The race in the contest has now reached fever heat and the excitement is now becoming intense, although at the present time it is not a patch to what it will be on the night of the close, THURSDAY, Aug. 19th at 7 P. M.

The double vote offer has been the means of a large number of the candidates who were away down in the list, previous to the starting of this DOUBLE Vote offer, of adding materially to their score.

It was originally intended to have the double vote offer remain open but one week, however, as the contest had been extended, and at the earnest solicitation of a number of the candidates and a number of their friends, it was decided to make the last week double votes.

From now until the end of the

contest those who want to be among the winners, must get in and make every moment count, if they expect to have their names on the roll of honor.

There is still opportunity to secure thousands of votes and those who are determined and aggressive will take every advantage of the remaining time.

EXCITEMENT RUNNING HIGH.
Excitement is running higher at the present stage of the contest than at any newspaper contest in this section, and one of the noticeable as well as the most commendable features is the lack of ill feeling.

CONTEST IS TALK OF COUNTY.
The Ledger contest is the talk of the entire county—you can hear it being discussed every place where people are wont to congregate.

Now all these people who are interested in the final outcome will be only too willing to give their assistance to some one; all that is necessary is for that candidate to ask them.

The public likes to see a good close race and they will back their favorite to the limit, and this contest is no exception to the rule.

Determination and stick-to-it-iveness are what will win these prizes, and the ones who display these qualities are the ones who will come out on top in the long run.

Warning is again given that the Ledger contest closes sharp at 7 P. M. next Thursday, and to avoid the rush at the last minute, get your votes in during the day and also get your subscriptions in before evening, so that you will not be bothered by the other candidates watching you to get a line on what you turn in.

Gather up your remaining subscriptions and promises early in the week and bring them in early and save vexatious delays at the last.

Promptly at 7 o'clock Thursday night the doors of the Ledger office will be closed, the final settlements of those inside the office will be made. As soon thereafter as the votes have been placed in the ballot box, it will be sealed and turned over to the judges.

Every one interested in the contest is invited to be present at the opening of the ballot box and the counting of the votes by the judges at West Hall promptly at 8 P. M.

The counting will be done ac

curately, the votes being called off by the Judges and tabulated in the presence of the public. When the last vote is counted then—and not until then—will the actual result be known.

Through the courtesy of three of the best known men of this city, judges have been secured who will have full charge of the counting.

They are:
C. E. Parker, Dr. E. E. Endicott, and Geo. E. Vela.

They are all disinterested persons and their presence insures a fair and impartial count and administration of the proceedings.

In the counting of the votes the standing of the contestants as they appear in the Ledger of this issue, based upon the returns up to last night, will be taken and the votes passed upon by the Judges, added to that standing. This will give the accurate rating of each candidate and determine quickly the total number of votes each has secured.

Complete records verified from time to time have guaranteed the accuracy of the standings published to-day and each candidate has also kept a check on the number of votes she has secured, so there can be no question of the correctness of the votes as they appear to-day.

The full details of the count, and

the result of the great contest, together with the winners will appear in full in the next issue of this paper. Again let us remind you that the time is growing short and that you have only a few more days to win the piano, in and that you will feel very badly indeed if you lose the piano by just a few thousand votes, which is sometimes the case in a contest of this nature. Work hard the few days and do not let a promise go by without having called on it.

REMEMBER, THE CONTEST CLOSES AT 7 P. M. THURSDAY NIGHT, AUG. 19th.

Diarrhoea Cured.

"My father has for years been troubled with diarrhoea, and tried every means possible to effect a cure, without avail," writes John H. Zirkle of Philippi, W. Va. "He saw Chamberlain's Colic, Cholera and Diarrhoea Remedy advertised in the Philippi Republican and decided to try it. The result is one bottle cured him and he has not suffered with the disease for eighteen months. Before taking this remedy he was a constant sufferer. He is now sound and well, and although sixty years old, can do as much work as a young man." Sold by Jackson Drug Store, Spagnoli Prop.

House for rent with all conveniences apply at Stasal residence, Jackson.

**FROM OUR
CORRESPONDENTS**

DEFENDER.

Aug. 9.—The cyanide plant at Defender has been in operation for some time, under the management of Mr. Coleman. Last week Mr. Coleman had a call to go to Grants Pass, Oregon. Since then another man has taken his place, as it will take some time to complete the work of treating the sulphurets and saving the gold.

There are several new ditch tenders on the Standard Electric ditch. Frank Ludeken's Boat has another man. Frank goes to Los Angeles, where a former superintendent, Mr. Page, is manager of some canal or ditch, where he hopes to get employment. Al Swithenbank goes back to Mill creek, where he was ditch tender several years ago, to be employed in the same work again. Mr. Powell and wife go to Malones, where he is employed in a mill.

Cory McKenzie made a short visit to Defender to see his mother, Mrs. Tom McKenzie.

Mrs. Patterson of Jackson visited her sister, Mrs. Will Blakely, for several days past at their mountain range.

Mrs. George Porteous of West Point passed Defender on her way to Ham's station, where she will be employed as cook.

Mr. and Mrs. H. H. Harker visited Mr. and Mrs. Dan Bowen at Pine Grove last Sunday.

Rev. Mr. Morley is able to be on duty again. His health is much improved. Services were held at Pioneer church last Sunday afternoon.

W. H. Nichols made a hasty trip to Jackson going and returning the same day.

Joe Dillie had the annoying experience of losing his diary, which he has kept for years. As good luck would have it, he found it again several days after it was lost.

F. B. Joyce had a rather serious accident last week. Coming home from Pine Grove with his horse and cart, it being very dark, he drove over an embankment. The cart was overturned, throwing the parties out without any serious damage. The horse ran home with the cart leaving the occupants to get home as best they might.

Eli Smith has gone to Sutter Creek to the sanitarium to be under the care of Dr. Griffin. He has been seriously ill for some time.

Busy Bee.

AUKUM.

Aug. 9.—Your correspondent, like a migratory bird, has arrived temporarily from Caldor, where he has been for about four weeks.

Grizzly Flat has begun to have renewed hopes of prosperity. The Mount Pleasant mine, which has been idle for some time, has again started up, and this time they intend to see if the old gold producer will not again pour wealth into the coffers of its owners. The intention of the present company is to sink 600 feet deeper before stopping. This will test the mine as to depth. In early years the Mount Pleasant was a dividend producer, turning out several million dollars. Frank McFeet is superintendent. He was born and raised at Grizzly Flat, and a better selection for superintendent than he could not have been made.

At present two men are camped just above Grizzly Flat, who are making a special business to trace the ancient river channels through these mountain ranges. The older man of the two told me he had been on every river of prominence in the United States, studying the rivers and their course. It is whispered [that] they are backed by a syndicate of capitalists, who are seeking to acquire possession of the dead rivers of California. The older one, in a conversation with myself upon the matter, denied this and said it was a personal matter. There is more gold stored away in these ancient rivers than has been taken out. The matter of mining, like everything else, is being reduced to a science, guess work will no longer do. The ancient river channels, of which there are many, have produced most of the gold found in California. A gorge has cut through it here, another there, and branching out like the arteries of the human system has left its deposits everywhere. "Where is their source?" I asked. "No one knows so far, but from my personal observation these rivers come from the north, possibly from the arctic re-

gions." They are intending to move camp right away further up the country to Capp's crossing on the middle fork of the Cosumnes river. Several of the Aukumites are working for the Caldor company, among them are Louie Seeley, Herman Goffinet, Isaac Swager, and Mr. Thompson. Giddy Disk.

IONE.

Aug. 12.—Miss Aileen Jones left Sunday for Berkeley, to resume her studies in the University. She was accompanied by Miss Ruby Shealer, who will remain for a few weeks visiting friends.

The brickyards will close down this week for an indefinite period on account of having a supply of bricks on hand which will exceed the demand for some time.

Mrs. C. K. Ashton and son, Harry, departed for Watsonville Thursday morning, on account of the serious illness of the former's sister, Mrs. Oliver.

The funeral of Mrs. C. Mullen of Stockton will be held here after the arrival of the train Friday afternoon. She is an old and respected resident of this vicinity, having lived here up to a few years ago. The relatives have the sympathy of all in the time of their great bereavement.

J. E. Gartin and sister returned from Sacramento Thursday where they had been to attend the wedding of their sister, now Mrs. J. S. Davis.

Little Doris Dwyer, who has been spending her vacation with her aunt, Mrs. W. Fithian, returned to her home in Oakland Wednesday.

Mr. Pohle has succeeded Mr. Tantan at the lone Copper Mine. Mr. Tantan will remain here for some time looking after business interests.

J. M. Haller and wife have taken possession of the Eastern Restaurant, and are now ready to serve meals at any hour.

Ioneite.

PLYMOUTH.

Aug. 11.—Frank Norton, who has been visiting his sister, Mrs. Freeman of this town left for Wheatland on Saturday last. He has the position of head book-keeper for Mr. Durst.

Mrs. Alsop and little daughter of Aukum, were the guests of Mrs. H. E. Potter one day last week.

Julie Levaggi was up from San Francisco, and spent a few days with his parents.

Mrs. Lepley was over from Jackson, and spent Sunday and Monday with Mr. and Mrs. L. Burke, returning home Monday evening.

Merwin Leach left for his annual trip to Kirkwoods on Wednesday Aug. 4th.

Tom Silva has gone on his vacation. He intends visiting Michigan Bar, Sacramento, and Placerville before he returns home.

Mrs. Pickett and granddaughter, Miss Hazel of Cosumnes, were the guests of Chas Devore a few days last week.

Mrs. Alma Shealer accompanied by her sister-in-law, Miss Gertrude Shealer of Oleta, paid her mother Mrs. A. O. Dugan of this place a visit on Monday last.

Miss Ethel Marr returned to her home in Latrobe to-day, Wednesday, after spending a few weeks with friends in Plymouth and Oleta.

Mrs. Teresa Patton has accepted the position of waitress at the Globe Hotel in Jackson.

Miss Lizzie Volmer and Miss Loretta Burke of Oleta were visitors in Plymouth Sunday.

Mr. and Mrs. A. F. Morgan and Mr. Fay Chadbourne were passengers on the outgoing stage to Carbondale Tuesday morning en-route for San Francisco.

Mrs. Millie Speakman and little daughter, Blanche returned to their home in Plymouth on Tuesday, after spending a few days with her mother, Mrs. Courrier of Shenandoah Valley.

Mr. Hanson of the Cyclops Machine Works, having put L. Burke's engine in good running order, left for San Francisco last Monday morning.

Dr. W. A. Norman and J. E. Walton accompanied by Mr. and Mrs. Shinner of Stockton left this morning, Wednesday, for an auto trip to Lake Tahoe. They intend staying several days.

Mr. and Mrs. Arthur Pritchard of this place were presented with a fine baby girl on Sunday last.

Master Wayne Walton, son of J. E. Walton, was a passenger on the outgoing stage to Sacramento Monday morning, where he will be the guest of his grandmother, Mrs. M. C. Walton.

N. E. Wheeler went to Stockton to attend the funeral of his sister, Mrs. Wise, formerly of this place. She died in the insane asylum.

Miss Marguerite Slavich is home on a short visit. She has secured a school in San Jose, where she intends teaching this winter. Wild Roses.

SUTTER CREEK.

Aug. 12.—Mr. and Mrs. Elmer Tanner and son, Leland, Mr. and Mrs. A. Harrison and sister, Miss Julia Tanner, and Mrs. Eugene Tucker, left Sunday morning on a camping trip to Silver Lake and Lake Tahoe. Eugene Tucker L. Bruce, and J. Hancock will follow to-day.

The Misses Fay and Clyde Templeton, who have been visiting with relatives here for several weeks, returned to their home in Alameda Sunday.

Mrs. M. Marks and son, Lewis, left Sunday for a short visit with relatives in the Bay cities.

John Raddatz and daughters, Misses Minnie and Pauline left this morning to visit in Stockton, Niles and San Francisco a week or so.

Louis Cassella, who is employed in the machine shops of Sacramento, is here visiting the home folks.

Excelsior Rebekah Lodge No. 63, I. O. O. F. served refreshments last Wednesday evening and enjoyed a social time in honor of Chas. Maloch, who will take his departure next Sunday, for Stockton to reside.

Mr. Maloch was the recipient of a very nice gold pen presented by V. W. Norton in behalf of the members in sincere appreciation of loyal and untiring work in assisting at all times during his stay with the members.

Miss Hazel Perkins and sister, Edna, came up from Stockton Wednesday to visit with friends a couple of weeks. They are the guests of Mr. and Mrs. J. Stribley.

Sutterite.

PEROVICH.—In Jackson, August 4, 1909, to the wife of Andrew Perovich, a son.

OLVER.—In Jackson, August 9, 1909, to the wife of C. E. Olver, a son.

DIED

WERLEY.—In Jackson, August 11, 1909, Roy Werley, a native of California, aged 18 years.

CUNEO.—In Drytown, July 24, 1909, Louis J. Cuneo, a native of California, aged 20 years.

INDIAN JIM.—In Ione, August 6, 1909 Indian Jim, a native of California, aged — years.

MULLEN.—In Stockton, August 11, and 28 days.

1909, Catherine Mullen, mother of Mrs. H. Burris of Ione, Mrs. D. McMurray and Misses Mary and Jennie Mullen of Stockton, and Mrs. J. G. Murphy of Chico, a native of Ireland, aged 80 years, 4 months. There is more catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address, F. J. Cheney & Co., Toledo, O. Sold by Druggists, 75c. Hall's Family Pills are the best.

Eat What

You want of the food you need Kodol will digest it.

You need a sufficient amount of good wholesome food and more than this you need to fully digest it.

Else you can't gain strength, nor can you strengthen your stomach if it is weak.

You must eat in order to live and maintain strength.

You must not diet, because the body requires that you eat a sufficient amount of food regularly.

But this food must be digested, and it must be digested thoroughly.

When the stomach can't do it, you must take something that will help the stomach.

The proper way to do is to eat what you want, and let Kodol digest the food.

Nothing else can do this. When the stomach is weak it needs help; you must help it by giving it rest, and Kodol will do that.

Our Guarantee

Go to your druggist today, and purchase a dollar bottle, and if you can honestly say, that you did not receive any benefits from it, after using the entire bottle, the druggist will refund your money to you without question or delay.

We will pay the druggist the price of the bottle purchased by you.

This offer applies to the large bottle only and to but one in a family.

We could not afford to make such an offer, unless we positively knew what Kodol will do for you.

It would bankrupt us.

The dollar bottle contains 2½ times as much as the fifty cent bottle.

Kodol is made at the laboratories of E. C. DeWitt & Co., Chicago.

A BANK BOOK TALKS

A bank book with your name on it showing you to be a depositor of this bank will talk for you. If you have an employer it will attract his favorable attention, and if seeking employment it will help you because the fact that you maintain a bank account denotes thrift and systematic business habits, and these are traits that are sought for in the character of an employee. It will also enable you to start into business on your own account. It will be a pleasure to us to issue such a book in your name.

Bank of Amador County Jackson, California.

BANKING BY MAIL

The Stockton Savings and Loan Society with resources of \$4,000,000.00 offers every facility for doing a banking business by mail. Checks taken payable in any part of the United States. Our system of banking by mail practically brings this great bank to your door. To open an account with us, place the amount you wish to start within an envelope addressed to us and by return mail you will receive a bank book showing the amount of your deposit. The United States mails are safe and no one ever lost a dollar in this way. We solicit the accounts of farmers, business men and others and assure them courteous and liberal treatment.

LOCAL NEWS

J. F. Wilson, Dentist. Hours 9 a. m. to 5 p. m. Phone—Office, Black 444; residence, Black 394; Jackson.

Mrs. R. Webb, and nephew Tommy Jones returned home Monday evening, after a two week's visit to Santa Cruz.

A Chalmers' Detroit auto from Tuolumne county arrived here Monday morning, and attracted much attention as it stood in front of the National hotel, on account of its fine equipment. It is one of the latest improved machines of the low priced type.

Fred Lemoin, formerly superintendent of the county hospital, accompanied by his wife and son, were in Jackson Sunday. Fred is employed as blacksmith at the Preston School. He was around seeing his many friends at the county seat.

The Ledger office has just received a new dress of body type for the Simplex type-setting machine, which will be put in service as soon as the machine has been reground. The old type has been in use since we purchased the type-setting machine over five years ago, and old type then.

Blas Catoich, an employee of the Kennedy, is suffering from an attack of pneumonia.

Jesse Kuykendall, who has been working in the Dispatch office for several months past, left Monday morning by the new auto stage line for Stockton. He does not intend to return.

The Martell stage left Monday morning without a solitary passenger, the first time this has occurred for a long time.

The auto that brought up the Sacramento baseball team from Stockton last Sunday got stuck on the Kennedy grade in starting on the return trip. A punctured tire was the cause, and it took about a couple of hours before damage was repaired so the team could resume its travel homeward.

S. Ritter, was prying out a large rock in the Argonaut mine last Saturday, when the loosened rock fell and alighted on his right foot, crushing the big toe severely, necessitating a lay off of several days. He returned to work the middle of the week.

Lawrence Newman, returned from San Francisco Saturday last, and has resumed his position in the county clerk's office.

Mrs. R. C. Bole and Mrs. J. W. Caldwell returned home from their eastern trip on Tuesday evening, after an absence of six weeks, on a visit to friends and relatives in Kansas and Illinois.

The party of four, consisting of Mrs. French, Lewis Love, Miss Emma Cassinelli and R. P. Reid, returned Wednesday from a two weeks outing at Kirkwoods.

There were eleven autos in this city Wednesday. Three of them were laid up for repairs in Garbarino's machine shop at one time.

Piano for sale, little used, cash \$475 sells for \$190. Piano experts say good as new. Inquire Ledger office. j9 2-m.

Dr. J. D. Fogarty, dentist, Jackson. Office in Kay's building, Main street. Hours from 9 a. m. till 5 p. m. Telephone, Black 363.

Richard Webb, of the Amador Ledger, has been reappointed United States Commissioner for the northern district of California at Jackson, a position which he has held continuously since 1892. The reappointment was made August 4th, and holds for four years.

Wm. Ross the tailor and his wife left Jackson yesterday morning, intending to locate elsewhere.

Mrs. M. Muldoon and two children left yesterday morning on a visit to relatives in Oakland. While there she will arrange to have the oldest son Edward placed in St. Mary's college, to finish his education.

Rent will be charged on idle meters, and after 60 days they will be removed without notice. B. E. Letang.

Dorman's sale still on.

The returns from the carload of ore from the Amador Queen mine in Murphy's guich to the leasers, Hambro, Crocker and Holtz, fell short of expectations, although yielding enough to leave a margin of profit. It was shipped as an experiment, to see whether such grade of ore would pay to ship below for treatment.

The petty larcenists are after the clothes lines again. The other day Mrs. J. S. Jack lost a skirt which was hung out on the line. In spite of every effort to discover the perpetrator of these raids, the matter is still wrapped in mystery.

A watermelon party was given at the residence of Mrs. Lillie French on Peak hill last evening. About fifteen invited guests were present, and spent a most enjoyable evening in playing games, and partaking of the good things provided in the way of refreshments. The residence was tastefully illuminated with small candles, presenting a very pretty sight.

Mrs. Web Smith, on the Mason tract had an embroidered shirt waist stolen from the clothes line of Mrs. Dondero, a neighbor, together with some other wearing apparel. A knife was found some time ago, leading to the impression that the clothes line thief is a man, and is in the business for profit.

Mrs. Phil Roberts, formerly of Jackson now living at the Fremont, where her husband is employed as foreman, had the misfortune to fall into a cellar injuring the ligament of one foot so badly that it will take three months before she recovers the normal use of the foot.

How to Prevent Tender Feet.

One woman boasts of not knowing what it is to have sore feet, and the secret of her success is very simple. She takes time once a week to soak her feet for almost an hour, and in this way she keeps them tender, but not too much so, and she has never known what it was to have a corn, bunion or other affliction. A small foot tub is filled with warm water in which there is a plentiful supply of melted white soap. She sits with her feet in the water and to keep the time from being too tedious reads a book. When the water begins to cool she realizes the soaking process is at an end. After drying the feet she attends to the nails and cuts them across, merely clipping the nail corners, because rounded nails will eventually penetrate the flesh, and the torment of ingrowing nails is most severe. A plentiful amount of talcum powder is used, and this insures comfort. No stockings with seams are worn, the shoes fit snugly, and a shoe too large is considered as injurious as one too tight. At the first appearance of a corn it is never tampered with, but the spot is treated with turpentine and ere long it disappears.

How to Dry a Sweater.

Try drying the sweater on a coat hanger and see how well it will keep its shape. If it is pinned to the line or hung over a chair, no matter how careful one may be, it is sure to be pulled out of shape in some place or other.

DOCUMENTS RECORDED.

The following instruments have been filed for record in the recorder's office since our last report. We publish a complete list of documents recorded, and must decline to accede to any request to suppress any document from these columns. Don't ask us to do so.

Deeds.—Martha Wilson to Allen Estate Co.—Land in 26 and 35-8-13, \$10.

Louisa E. Gill, trustee, to William Young—Lot 3, block 1, Sutter Creek, \$250.

Flora S. Whitney, et al to Emanuel Santirfo, 35 acres in 26-7-12, \$100.

Deila B. Martell to David Kerr, lot at Martell's Station, \$10.

W. C. Littlefield et ux to Antonio Viara, 40 acres in 20-7-10, \$10.

Permela Hanford to Wallace Wilson, lot 1 block 2, Pine Grove, \$1.

Robert V. Lucy et al to Amador Gold M & M Co., the Honolulu Lady quartz claim, Volcano district; consideration, 300 shares of the stock in the Amador Gold M & M Co.

John F. Wharf et ux to Eugene Schwartz—40 acres in 15-6-10 and 15 acres in 10-6-10, \$200 payable in one year with interest at the rate of 1 per cent per month.

Mortgages.—Charles L. Paddon to George J. Crane, 80 acres in 18-7-9, \$1600, payable within one year with interest at the rate of 8 per cent per annum.

David Kerr to Delia B. Martell, lot at Martell's Station, \$1755 payable in two years with interest at the rate of 8 per cent per annum.

Mrs. Christopher Daobrich to James R. Dunlap, lot 7 block 1, Amador City, \$250, payable in one year with interest at the rate of 8 per cent per annum.

Locations.—W. H. Hanel locates the Hanel quartz claim in Lancha Plana district.

W. H. Weller locates the Oakland quartz claims—Lancha Plana district.

W. H. Weller locates the Stanford quartz claim in Lancha Plana district.

W. H. Weller locates the Palo Alto quartz claim in Lancha Plana district.

SUPERIOR COURT

PROCEEDINGS

HON. F. V. WOOD, JUDGE

Estate of Antonio Rechenillo—Order of sale of real estate granted, guardian required to file an additional bond of \$300.

Estate and guardianship of Mary N. Kelly—Mary F. Kelly appointed guardian upon filing bond in sum of \$3,000.

Frank Primo vs L. H. Cook—Demurrer of defendant overruled; 20 days allowed to answer.

W. J. McGee vs Benjamin—Hearing on motion to dismiss continued until August 12.

E. Van Wracken vs Jameson—Trial continued until October 18.

Estate and guardianship of Geo. H. Frates, et al minor children—Order of sale of real estate granted upon filing bond in sum of \$400.

Wm. J. McGee vs A. M. Bergevin Co., a corporation—Ordered and decreed that plaintiff's and respondent's motion to dismiss the appeal of defendant be granted. Defendant permitted to file a bond staying execution to and including September 13, 1909.

In the matter of estate and guardianship of Geo. H. Frates et al. Affidavit of publication filed. Laura Muller, guardian authorized to sell the real estate upon filing a bond of \$400 for each minor.

Estate of A. M. Vaughn, deceased—Affidavit of posting and inventory and appraisal filed; order for sale of real estate made.

Laid to Rest.

Claurence H. King, whose death occurred in Alameda at 6:30 p. m. on Tuesday the 3rd instant after an illness of fifteen months, was a resident of Jackson, his father being proprietor of the National and Union hotels.

In 1862, the family moved to Sutter Creek, and took charge of the Sutter hotel, and afterwards Clarence worked in the R. R. mine with his father, who was killed in the same mine.

In 1872, he entered the employ of the S. P. R. Co., which position he held for 33 years. The last 12 years as station baggage master. Mr. King was 60 years of age, and leaves a widow, daughter and sister. Mrs. E. C. Hatch, and brother Edwin King to mourn his loss, besides a large number of friends who sympathize with his bereaved family.

How to Relieve Minor Ills.

A tablespoonful of glycerin in a wineglassful of hot milk will often relieve a severe coughing spell.

Fresh lemon juice when injected into the nostrils has been successful in arresting bleeding.

People would never get spongy gums if they made it a rule to rinse the mouth daily with some innocent antiseptic. Common table salt dissolved in water will serve.

For earache a few drops of warm glycerin poured into the ear soothe and heal, and equal parts of belladonna and glycerin mixed and rubbed round the ear will soothe the pain if severe.

FOR DELINQUENT TAXES

Property Deeded to the State

The following deeds to the state have been placed on record, on account of delinquent taxes of 1904. The property herein mentioned was sold in 1904 for delinquent taxes of 1903. Five years having elapsed from the date of the sale, without the owners redeeming, a deed to the state is made for each parcel, and the same is placed on record. The delinquent owners, of course, can still redeem, but any persons has the right of petitioning the state to have any particular piece of property advertised and sold to the highest bidder.

Western Pennsylvania M Co on Ivanhoe quartz mine, in 36-8-10, \$63.

H. M. Richardson, on Atlantic quartz mine, in Drytown district, \$11.75.

B. Levaggi, on int by mortgage executed by A. Petrinovich et ux, on lot in Plymouth, \$3.51.

W. H. McCormick, on int by mortgage executed by Jas. Brien, on Rising Star or Red Oak quartz claim, Plymouth district, \$4.65.

Ben Grenall, on 200 acres, in 17 and 18-7-11, \$14.

S. Marcovich, on lot 27, block 2, \$5. R. Harris, on lot near Bunker Hill mill, \$11.97.

A. Davalle, on lot near Bunker Hill mill, \$2.75.

J. F. Donovan, on lot 15 block 6, Sutter Creek, \$9.50.

J. H. Werley, on lot 7 block, Pine Grove, \$4.40.

R. P. Walker, on lot 1 block 2, Pine Grove, \$1.13.

Treadwell M Co, on Treadwell quartz mine, near Volcano, \$11.75.

R. K. McCoy, on house and lot, at Volcano, \$2.75.

Adam Hank, on a half interest in 10 acres, in 33-8-11, \$2.75.

Geo. Gale, on 70 acres, on 18-7-13, \$11.75.

L. Foster, on 160 acres in 30-7-13 and personal property, \$20.48.

Mrs. M. L. Davis, on 160 acres, in 27-8-14, \$9.50.

D. A. Sutherland, on int by mortgage created by Geo. D. Shofield, \$7.25. Milton Beare on Bonanza quartz claim in 28 and 29-7-13, \$6.20.

Wm. H. Lane, on 80 acres in 31-6-10, \$16.20.

Ah Yank on lots 19, 24, 25, 26 and 27 block 6, Lancha Plana, \$3.25.

C. D. Ginocchio, on int by mortgage created by Julia E. Sargent, \$9.57.

Auto Line and Local Garage.

Messrs Thorpe and company started their automobile business last Saturday. Three fine machines of the White Co. make arrived on Saturday, and were installed in the premises heretofore occupied by M. Ford as a blacksmith shop, next to the National hotel. An expert chauffeur has been engaged to run and take care of these road machines.

They started business in good shape Sunday. On that day one machine took the Jackson business men to lone to compete at baseball with a business nine of that place. Another machine was put to work in conveying passengers between Jackson and the baseball grounds beyond the Zella, charging 25 cents for the round trip. It did a thriving business.

Monday morning an auto stage line was started to Stockton. The first trip it carried three passengers from this city. The second day the passengers were too numerous to be carried on one machine, so another auto was called into action. The fare is somewhat lower than by rail, and besides there is the additional advantage of being able to connect with the passenger train at Stockton that reaches San Francisco between 2 and 3 in the afternoon, a saving of about 2 hours in time. The auto business has started very auspiciously. Both Stockton and Sacramento auto stages travel via lone.

Sale of Big Timber Tract.

John Raggio, president of the Commercial Bank of Stockton, and formerly of Calaveras county, also well known throughout Amador, has just consummated a deal whereby 30,000 acres of valuable timber land in Calaveras county passes into the hands of Michigan capitalists. Charles F. Ruggles, a millionaire of Michigan, represented the purchasers, and it is said he has instructions to buy all the timber land in California that he can get hold of. The tract in question adjoins the famous Whiteside grove of big trees. The price paid for the tract is said to be \$300,000. The tract was bought from the Big Trees Company, a concern composed of San Francisco, Stockton and French capitalists, of which company Raggio was among the heaviest stockholders. The price was based on an estimate of 30,000 feet of lumber per acre. It is reported that the same company contemplates purchasing other timber lands in Calaveras county.

AYER'S HAIR VIGOR
Stops Falling Hair
Ayer's Hair Vigor is composed of sulphur, glycerin, quinin, sodium chlorid, capsicum, sage, alcohol, water, and perfume. Not a single injurious ingredient in this list. Ask your doctor if this is not so. Follow his advice. A hair food, a hair tonic, a hair dressing. Promptly checks falling hair. Completely destroys all dandruff.
AYER'S HAIR VIGOR
Does not Color the Hair
J. C. AYER COMPANY, Lowell, Mass.

A Stickler.
It matters not how hot the day
Nor how a hard perspires,
He keeps on striving every way
To stir up genius fires.
—Kansas City Times.

One Man's Way.
The Lowly One—And were you born great?
The Great One—No; I thrust myself upon it.—Town Topics.

Human Nature.
No man respects free advice
Who'd rather go
To those we know
Will charge a handsome price.

"It takes an artist to cut hair."
"Yes, and it takes an artist to go without a hair cut."—Baltimore American.

COUNT THE DOTS.

Free! Free!

Over \$3000 in prizes given away to those sending the nearest correct answers

Do You Want a PIANO?
Do You Want a SEWING MACHINE?
Do You Want a PHONOGRAPH?
If So, Enter This Contest.

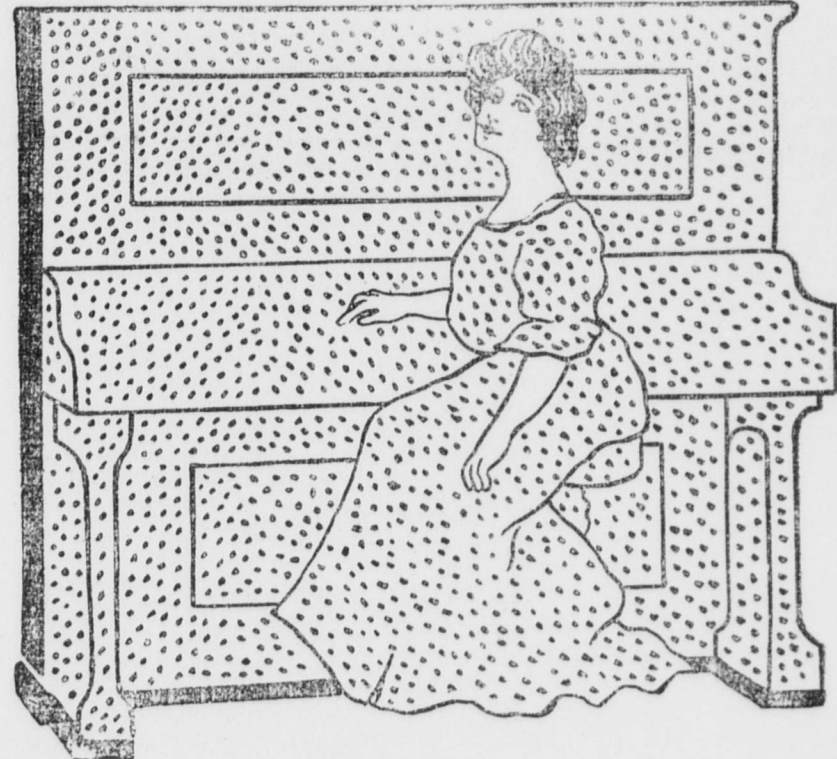

The Schulz Piano Company has given us a certain amount for advertising purposes. Other piano factories not to be outdone, have given even more. This gives us a large sum to distribute in the following novel manner for advertising purposes and saves the heavy expense of advertising in magazines and by piano salesmen.

1st Grand Prize, \$400.00 Mahogany case piano,
2nd prize, Drophead sewing machine,
3rd " \$40.00 Phonograph and 12 records,
4th " \$5.00 Violin,
5th " \$40.00 Guitar,
6th " \$30.00 Mandolin.

500 Art Pictures will be given away to those who call at our store and other cash value prizes to the value of \$5000 will be given to contestants. Everyone answering will be rewarded.

Its Easy, simply count the dots within the outline of the piano and lady, do not count the dots on the face.

Answer to the best of your ability whether correct or not, everybody that answers will share in the \$5000 cash value distribution. In former contests, prizes have been evenly distributed and those living out of town will have the same chance as those in town.

CONDITIONS.

Only one in a family and no one engaged in the music business, no employee of this store or winner of prizes in our former contests, will be eligible as contestants.

The representatives of the Stockton papers will act as judges. The contest will be run fairly and contestants must abide by the decision of the judges.

If no one sends a correct answer, the prizes will be awarded to those sending the nearest correct.

If more than one correct answer is sent in, neatness will be considered in making the awards.

Contest closes at 4 P. M. Aug. 31, 1909.
Send your answer with full name and address to
MCNEIL CO., CONTEST DEPARTMENT,
Elks' Building,
Stockton, Cal.

The Candle Test

By F. A. MITCHEL.

Josh and I were fellow laborers working for Farmer Bathgate. We went to him when the crops were ready to be taken in, and he liked us so well that when the harvest was over he concluded to keep us for every-day work during the winter. In the summer Ruth Bathgate, his daughter, used to bring us out cool drinks, and we two young men soon became anxious for some sign of preference—not that either of us had any intentions toward her; it was just an ordinary rivalry. But Ruth was mighty particular not to make the slightest difference between us.

When the autumn came on, the fodder was in shock, the weather getting cold, and the logs were blazing on the hearth, the farmer and his family and Josh and I used to sit around the blaze, talking and telling yarns. That was a happy winter for both Josh and me. We didn't either of us suspect that we were both dead gone on Ruth, nor did we foresee what was to happen to break up our pleasant circle. That's the trouble with pleasant times—there's always something that makes them pleasant, and, ten to one, it's the very thing to break up the pleasure. Since it is all over I know that what made our enjoyment so keen was Ruth, and it was Ruth that spoiled it all—not intentionally, for, as I said, she favored neither of us. She couldn't have kept us two fellows from gradually falling in love with her if she had wanted to.

At first Josh and I used to speak about little occurrences concerning her with perfect freedom. Then we ceased to say anything to each other that involved any relation with her, and finally we never mentioned her. A year passed, the pleasantest I have ever known, and when we'd filled the barns and there was little to do one day Josh said to me:

"There's something I want to say to you, Ben. The harvest is ended, and it doesn't seem just right for two strapping fellows like us to put Farmer Bathgate to the expense of keeping us all winter. There's enough for one to do, but not enough for two. It's my opinion he'd let one of us go, but doesn't like to decide between us. What do you say to playing a game of seven up to settle which shall get out?"

"I reckon there's something in what you say, Josh," I replied in as melancholy a tone as his. "He's treated us mighty well, and we ought to relieve him of the responsibility of sending off one of us. And you and I, too, have been square to each other. I don't exactly like your plan of playing a game to find out which shall go, for one might have more skill than the other. I think we'd better let something else than cards decide between us. Mrs. Bathgate was making candles this morning. Now, what do you say to your choosing a candle and I choosing one out of the same mold and lighting them at the same time? The one whose candle goes out first is to go."

"I think that would be a good way to settle it."

We were in our room at the time—we occupied a room together—and I was going out to get the candles when I met Ruth at the door.

"I've heard what you two have been saying," she said, "through the partition, and you're right. Father doesn't need but one extra hand this winter, but he won't send away either of you. I'll go down and get the candles and light them for you."

We were both mightily pleased to have her do this and waited patiently till she came back with the candles.

"Would you choose for us?" we both said at the same moment.

"If you wish me to."

Placing a candle before each of us, she scratched a match in each hand and lighted them at the same moment. Then she left the room without a glance at either of us. The candles were short and would burn out in between one and two hours. Josh and I played a good many games of seven up, occasionally glancing at the candles with apparent unconcern, but really with suppressed suspense. It was not till they had burned down to within an inch of the socket that I noticed a difference. Then I saw that my candle was burning the slower. When Josh's began to flicker there was still three-eighths of an inch of mine left. He blew it out and turned away to conceal his feelings. I expected Ruth to show enough interest in which of us was to remain, to ask before going to sleep, but she didn't. "Well," I said to myself, "it doesn't make any difference, after all, which goes first. We'll both go soon enough. She doesn't want either of us."

The next day Josh told the farmer that he thought he'd look for work in the city and left us. He had no sooner gone than Ruth began to bestow upon me little attentions. This was quite enough to induce me to show my feelings, and I met with every encouragement. In less than a month after Josh's departure I was engaged.

After our engagement I told Ruth the story of how Josh and I had both secretly loved her and how we had settled by the burning candles which of us was to have a clear field. I twitted her on the fact that when lighting them she was ignorant that she was interested.

"Not at all," she replied. "I knew that I was the object of your test and before bringing up the candles put salt on the wick of the one I intended should be yours. Salt makes a candle burn slower."

DAMES AND DAUGHTERS.

Mrs. Alice Roosevelt Longworth has applied to and received from the Ohio automobile department a license tag.

Ida Lewis, keeper of the Lime Rock lighthouse, in the southern end of Newport harbor, will celebrate her fifty-third anniversary at the lighthouse July 1.

Julia Ward Howe, who is ninety years old, is quoted as saying, "The deeper I drink of the cup of life the sweeter it grows—the sugar is all at the bottom."

Mrs. Sofia Loebinger was elected president of a new organization of suffragettes which was formed recently in New York. It is composed entirely of wage earning women.

Miss Grete Wildmayer, who has just married Paul Laubbeck, a hunter of large game in Africa, was the first European woman to acquire citizenship in the Kongo Free State. She is a native of Austria.

Lady Aberdeen, who has been carrying on an energetic propaganda to better the health of the Irish people, has undertaken the editorial work of a monthly magazine which will be issued by the Women's National Health association.

Mrs. Collis P. Huntington has given a large plot of ground at Broadway and One Hundred and Fifty-sixth street, New York city, valued at \$250,000 or more, to the American Geographical society on the condition that the society raise money for the erection of a building on the site.

Dress Hints.

Chiffon velvet is a most excellent thing for brushing a felt hat, whether a man's or a woman's.

After removing your veil roll it carefully and pin. This prevents a muss, stringy veil when next you use it.

One of the first rules to be observed in the proper treatment of silk dresses or silk material is that silk must never be folded.

The woman who always continues to look smart on nothing a year makes a point of buying a couple more yards of material than she needs for her frocks. Then when the sleeves go out of fashion, as they are sure to do long before the rest of the gown, she can have them altered.

Train and Track.

German railroads are experimenting extensively with cars operated by electric storage batteries.

For handling heavy rails an eastern railroad has equipped a flat car with pneumatic hoists operated from the air brake system.

Nearly all the railroads in Argentina are planning or already have under way extensive improvements and enlargements to their systems.

A new type of electric locomotive of which the New York Central railroad will soon have twenty is capable of 4,000 horsepower at high speed, the armatures being mounted on the driving axles.

Law Points.

An assignment by one in service, of wages to be earned in the future, is held in Chicago, Burlington and Quincy Railroad company versus Provolt (Colo.), 93 Pac., 1126; 16 L. R. A. (N. S.), 587, not to be against public policy.

A promise by a mortgagee on failure of the net proceeds of a sale of the mortgaged property to equal the debt to take less than the debt in full discharge of it is held in Gilson versus Nesson, 198 Mass., 598; 84 N. E., 854; 17 L. R. A. (N. S.), 1208, to be without consideration and void.

Things Theatrical.

William Courtenay has been engaged for an important part in one of the Frohman productions next season.

Blanche Ring is to star the coming season under the direction of Lew Fields in a piece called "The Yankee Girl."

Eugene Walter is going to revise his first play, "Sergeant James," and the Shuberts will produce it early in the season.

Forbes Robertson and Gertrude Elliott are going to make an American tour in J. K. Jerome's play, "The Third Story Back."

English Etchings.

There are always about 1,500 British youths between sixteen and twenty-one in prison.

A seam of coal of good quality two feet thick has been discovered under Brigsteade, one of the principal streets of Leeds.

At the funeral of Fred Cavalla, a London costermonger, the open hearse was drawn by six horses. One of the leading horses was ridden by a postillion dressed in black, while four bearers carrying white wands walked beside the hearse.

Progress and Labor.

Within a third of a century the rate of wages throughout the German empire has doubled.

The building trade has the greatest number of strikes. The coal and coke industry comes next.

A new machine automatically weighs or measures a medicine and fills eight capsules while one is filled by hand.

Norway has a law which prescribes that all factories shall provide accident insurance for their employees, failure to comply with which is punishable by fine.

BOWED LEGS.

How This Deformity Can Be Avoided in Early Life.

If a child's legs have a tendency to curve or bow it should not be allowed to walk. The wise mother, however, will let it twist and roll on the carpet. The legs will then soon straighten themselves. What a pity it is that many young mothers are so unwise as to make their babies walk too soon, before the little, soft bones have become sufficiently strong to bear even so light a weight.

Of course when the baby first shows an inclination to stand upon his own feet he should be allowed to do so and should even be provided with a chair to keep him from falling. Then the first little step must be encouraged, too, and the child should learn to the best of his ability, but slowly. All of this exercise is natural and should therefore not be checked.

The carelessness that is particularly deplorable is not the innocent play of a child who will rest when he is tired. It is the walks that he is forced to take hanging to the hand of his mother. You have no idea how much more difficult it is for people to walk a long distance on a stone pavement than on a wooden floor. Furthermore, mother walks perhaps slowly, but steadily. There is no loitering on the way to rest the aching little feet. Mother is not tired herself, and she therefore forgets that to every one of her steps baby must take about four and that he will soon be tired. It is then that the strain comes upon the legs, and even the bones themselves are not able to withstand it.

Stop earache in two minutes; toothache or pain of burn or scald in five minutes; hoarseness, one hour; muscleache, two hours; sore throat, twelve hours.—Dr. Thomas Electric Oil, monarch over pain.

How to Candy Sweet Potatoes.

The southern method of cooking sweet potatoes has gained widespread popularity in the north, but few cooks, amateur or professional, know how to get these right. Even at high priced restaurants, where one pays a neat little sum of money for sweet potatoes in southern style, one does not get the toothsome dish that is served almost daily from Richmond to Tallahassee. The potatoes are there; but the juice, the candy, the softness, are all left out. Sometimes this is from carelessness as well as ignorance. Cooks will not take the time to do the work slowly and well. The correct recipe is as follows:

Boil together a half cupful of sugar and a pint of water until it spins a heavy thread. After the sweet potatoes are boiled tender in their skins take them out, peel them, slice them and lay them in a baking pan with the flat side up. Pour over the potatoes the sugar and water. Place these in a hot oven until the potatoes are slightly warm. If brown sugar is used instead of white the candied effect will be much better and more palatable. This should be served in the pan in which it is cooked. Therefore it is wise to use one of the brown and white earthen dishes.

Take Kodol at the times when you feel what you have eaten is not digesting. Kodol digests what you eat so you can eat sufficiently of any good, wholesome food. If you will just let Kodol digest it. Sold by City Pharmacy, F. W. Ruesher Prop.

Large Supply.

"I understand you have a case of indigestion."

"A case? Man, it's a carload!"—Lippincott's Magazine.

Now Spelling.

D-o-g spells dog.

C-a-t spells cat.

But h-a-l-l—

That spells rat.

—Harper's Weekly.

If you haven't the time to exercise regularly, Doan's Regulets will prevent constipation. They induce a mild, easy, healthful action of the bowels without griping. Ask your druggist for them. 22c.

How to Test a Motor.

Probably the best test of the condition of a motor is to run it as slowly as possible, observing whether its action is perfectly even or not. In many cases, to be sure, a motor which runs powerfully and well at normal or high speed will not "hit evenly" when throttled down owing either to improper carburation or to uneven ignition. The motor which runs perfectly well at low speed, however, usually retains its action under higher speed and load conditions, provided only it is equipped with a proper carburetor. Incidentally it should be mentioned that a prevalent and most deceptive cause of irregular running at low speeds is lost motion in the linkage between the control levers and the carburetor and timer. Where such lack exists even a slight amount of vibration is often sufficient to throw out the regulation.

The best remedy we know of in all cases of Kidney and Bladder troubles and the one we always can recommend, is DeWitt's Kidney and Bladder Pills. They are antiseptic and at once assist the kidneys to perform their important work. But when you ask for these pills be positive that you get DeWitt's Kidney and Bladder Pills. There are imitations placed upon sale to deceive you. Get DeWitt's. Insist upon them, and if your dealer cannot supply you—refuse anything else in place of them. Sold by City Pharmacy, F. W. Ruesher Prop.

Pioneer flour is the best; have no other.

Now Is The Time

to make up your mind to have that "Photo" taken. Don't put it off any longer—you'll never be any younger or look any better than you do right now. Call at Logan's 15 S. San Joaquin Street, the next time you are in Stockton, and let him fix you up. Then you can agreeably surprise your friends by giving them a likeness of yourself. Best workmanship—lowest cost.

That's Good.

"My husband has always been one to encourage those who work for him," remarked Mrs. Pike to her sister.

"You mean he is always ready to give praise where praise is due?"

"Yes, indeed. When one of his men does good work he is quick to say so. Night after night, after he has been late at the office, I hear him murmuring in his sleep: 'That's good! That's good!' And he always reluctantly confesses that he was dreaming about the good work the men are doing at the office. Oh, I'm so glad!"—Paris.

Contentment.

Who lives for love must sorrow know. Who lives for gain must rest forego. Who lives for power must trouble joy. Who lives for fame stakes all for toy. More blest are they who toil all day And sleep the sleep of

Just

Plain

Poisoning Weeds Alone.—Darkness for Books.—A Novel Type of Architecture.—The Twentieth Century Museum.—The Magnet as Air Filter.—Latest in Life-Saving.—Magnetism as Machine Gearing.—British Flowers—Electrified Leaves.

The destruction of weeds by spraying was begun in North Dakota in 1896 by Prof. H. L. Bolley, who is widely known also for his researches in plant diseases. He sprayed growing wheat with solutions of copper sulphate and mercuric bichloride, and found that the tops of both grain and weeds turned black, but the former revived in two or three days, while young mustard and other weeds withered and died. The difference in effect is attributed to the fact that the broad, rough and soft leaves of the weed retain much of the chemicals, which run off harmlessly from the smooth and slender stalks of grain. For sulphate of copper has been substituted the cheaper sulphate of iron, of which many tons are now used, killing most weeds without injury to grain, including false flax, shepherd's purse, peppergrass, corn-cockle, chickweed, dandelion, Canada thistle, bindweed, plantain, pigweed, ragweed and others. A solution of two pounds of sulphate of iron in a gallon of water has been found effective in a similar way for freeing lawns from young dandelions.

Buildings without windows have received favorable consideration for the book-stacks of libraries. Daylight is injurious to books, and besides this the windowless structure offers such advantages as reduced cost, better protection against fire, exclusion of dust, greater convenience in changing the arrangement of the books, and more equable temperature. As library stacks are mostly hidden behind other buildings the unattractiveness of the plain walls is not a serious objection. Forced ventilation would give pure air, and artificial light could be turned on at will.

Considering that circular structures best resist earthquake shocks, Prof. Giuseppe Forres, of Venice, has designed a house, for earthquake regions, consisting of several circular turrets of different diameter communicating with each other. This seems more artistic than economical.

In the unique and advanced museum idea of Dr. Goldschmidt of Brussels, the aim is to go beyond inert models and bring the public into contact with science in action, inviting visitors to test and use apparatus instead of labeling it "Don't handle." His first efforts have been applied to a popular electrical laboratory. This is divided into graded sections, so that the visitor may first experiment with sealing wax or magnets, then with electric generators and motors, passing further along to tubes in which he may show cathode rays and other electrical discharges and the effects of radium, and reaching finally the instruments for precise measurements, in a section competent assistants perform the tests, although sufficiently trained visitors are permitted to use the instruments. Some of the more delicate apparatus is kept under glass, leaving exposed only such parts as must be handled in making the experiments. There is a mechanical workshop where any person may gain experience in constructing electrical apparatus, four small laboratories for personal research by specialists, a hall for the free exhibition of industrial products, a lecture hall where pressing a button causes 100 successive scientific views to be thrown on a screen and a library of the principal scientific books and periodicals.

In factories where needles are made, the grindstones throw off great quantities of minute steel particles, with which the air becomes heavily charged, although the dust is too fine to be perceptible to the eye. Breathing the dust shows no immediate effect, but gradually sets up irritation, usually ending in pulmonary consumption, and formerly workmen almost all died before the age of forty. Ineffective attempts were made to screen the air by gauze or linen guards for nose and mouth. At last the use of the magnet was suggested, and now masks of magnetized steel wire are worn by workmen, and effectually remove the metal dust before the air is breathed. The novel lifebelt of P. Guterman, an English inventor, is a metal strap, adjustable to man or child, with four air-filled metallic floats about the size of an ordinary coconut. It is claimed that the wearer of the belt must always assume and keep a perpendicular position in the water.

In the novel gearing of Jules Leecoche, lately brought to the notice of British engineers, the two wheels, with spiral or helical teeth, do not run in contact, but one wheel is rotated by the other through the pull of magnetism. The tops of the teeth of the two wheels are separated about 1-32 of an inch. One wheel is provided with field magnets that generate a magnet flux between its teeth and the corresponding teeth of the opposite wheels, and as the first wheel turns its teeth pull those of the other wheel around. The magnet force is being constantly shifted from one tooth to the next behind it, so that the rotation of the other wheel is made continuous. There is no friction, and only three per cent of the transmitted power is used in the field magnets, the gearing efficiency being about 97 per cent. Not least among the advantages of the new apparatus is the high speed possible in transmission.

Blowing wells, sucking in and expelling air, are known in different parts of the world, and one explanation is that they are connected with changes of barometric pressure. Late attention has been drawn to three interesting specimens near Norwich, England. They are 3 feet in diameter, about 75 feet deep and 100 feet apart, and the sucking and blowing often last several days each. An iron dome over the opening is sometimes blown off, leaves being drawn in when the air current is reversed. The wells are two miles from the river Yare, and 140 feet above sea-level, the river being only four feet higher than the ocean.

A singular electric plant is said to grow in the forests of India. Plucking its leaves gives a shock, and it affects a magnetic needle 20 feet away. The energy is greatest at about 2 o'clock in the afternoon, nearly

disappearing at night. Its intensity often increases greatly in storms, but in a heavy rain it becomes so inert as to have no influence on the compass. No magnetic metals are found near. Birds and insects seem to have an instinctive dread of the plant, and are never known to alight on it.

KEEP THE KIDNEYS WELL
Health is Worth Saving, and Some Jackson People Know How to Save It.

Many Jackson people take their lives in their hands by neglecting the kidneys when they know these organs need help. Sick kidneys are responsible for a vast amount of suffering and ill health, but there is no need to suffer nor to remain in danger when all diseases and aches and pains due to weak kidneys can be quickly and permanently cured by the use of Doan's Kidney Pills. The following statement leaves no ground for doubt.

J. W. Callahan, 625 L. St., Sacramento, Cal., says: "My back was so weak I was scarcely able to work. I could not stoop without experiencing sharp pains through my loins and was so lame in the morning on arising that I found it very difficult to put on my clothing. The kidney secretions were so frequent in passage as to force me to arise several times during the night. Doan's Kidney Pills entirely disposed of my trouble and for that reason have my hearty endorsements."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

NOTICE.

I hereby caution all persons not to trust my wife, Jessie C. Perryman, on my account, as I will not be responsible for any debts she may contract after this date.

Making Good.

There is no way of making things like "Making Good;" and Doctor Pierce's medicines well exemplify this, and their friends, after more than two decades of popularity, are numbered by the hundreds of thousands. They have "made good" and they have not made drunkards.

A good, honest, square-deal medicine of known composition is Dr. Pierce's Golden Medical Discovery. It still enjoys an immense sale, while most of the preparations that have come into prominence in the earlier period of its popularity have "gone by the board" and are never more heard of. There must be some reason for this long-time popularity and that is to be found in its superior merits. When once given a fair trial for weak stomach, or for liver and blood affections, its superior curative qualities are soon manifest; hence it has survived and grown in popular favor, while scores of less meritorious articles have suddenly flashed into favor for a brief period and then been as soon forgotten.

For a torpid liver with its attendant indigestion, dyspepsia, headache, perhaps dizziness, foul breath, nasty coated tongue, with bitter taste, loss of appetite, with distress after eating, nervousness and debility, nothing is so good as Dr. Pierce's Golden Medical Discovery. It's an honest, square-deal medicine with all its ingredients printed on bottle-wrapper — no secret, no hocus-pocus humbug, therefore don't accept a substitute that the dealer may possibly make a little bigger profit. Insist on your right to have what you call for.

Don't buy Dr. Pierce's Favorite Prescription expecting it to prove a "cure-all." It is only advised for woman's special ailments. It makes weak women strong and sick women well. Less advertised than some preparations sold for like purposes, its sterling curative virtues still maintain its position in the front ranks, where it stood over two decades ago. As an invigorating tonic and strengthening nerve it is unequalled. It won't satisfy those who want "boozie," for there is not a drop of alcohol in it.

Dr. Pierce's Pleasant Pellets, the original Little Liver Pills, although the first pill of their kind in the market, still lead, and when once tried are ever afterwards in favor. Easy to take as candy—one to three a dose. Much imitated but never equaled.

Constipation causes headache, nausea, dizziness, languor, heart palpitation. Drastic physics gripe, sicken, weaken the bowels and don't cure. Doan's Regulets act gently and cure constipation. 25 cents. Ask your druggist.

How to Avoid a Fall.

A man who once had a bad fall when going down his cellar stairs now has a broad strip of white painted on the floor at the end of the last step. This is easily seen, even if the cellar be dark, and many a nasty accident is avoided.

If the house is rented and you do not like to paint the boards, a piece of white oilcloth can be tacked in the floor at the foot of the stairs. See that the tacking is securely done or a worse fall may follow than from a mis-gauged step.

How to Make a Floor Filler.

To make a good floor filler put one pint of broken glue in an old tin bucket and cover with one gallon of boiling water. Put the bucket into a second vessel of water, and the glue will dissolve without burning. When it boils add enough sifted sawdust to make a good putty. Fill the floor cracks with this and smooth with a steel wood scraper or thin bladed case knife.

How to Keep Palms Thrifty.

To make palms thrive in an ordinary sitting room sponge the leaves once a week with lukewarm water to which a little milk has been added. Then stand the plant in lukewarm water, deep enough to completely cover the pot, until the water stops bubbling. This is the proper way to water palms.

How to Render Flannelette Safe.

After flannelette articles have been washed they should be rinsed in water in which one ounce of alum or sal ammoniac has been dissolved. This little precaution will make them noninflammable and may be the means of saving many little lives.

How to Sweeten Rancid Butter.

Melt and skim the butter and then put into it a piece of well toasted bread. In a minute or two the bread will have absorbed all offensive taste and smell and the butter will be perfectly sweet.

Ledger Voting

Contest.

All contestants are reminded to have their ballots in the ballot box at the Ledger office before 7 p. m. of the 19th, or they will not be counted. Remember, that even if you should have more votes than any one else, but neglect to put them in the ballot box, you will lose out. Also bear in mind that the blue ballots that you have been saving are the votes, and not receipts for votes, as some think they are.

Last night at 7 o'clock witnessed the close of the double vote offer, and to say that the contestants made every moment up to that hour count in expressing it mildly. Votes came into the office all day yesterday, and the candidates who took advantage of the double vote offer are now firmly entrenched behind thousands of votes secured during the first week of this offer, and as the double vote offer was such a grand success it has been decided to extend it one week or until the end of the contest, so that none of the contestants can say but what they had a chance to win up till the last day of the CONTEST.

One week from last night and the Ledger Contest will be a matter of history. There will be 7 popular ladies recipients of 7 prizes to be given away by Amador county's popular weekly paper.

LIST OF CANDIDATES

District No 1, including city of Jackson:	votes
Miss Ida Smith	35350
Miss Rose Katto	20010
Emma Parrott	5000

It's earth's supreme healer, infallible for Boils, Ulcers, Fever Sores, Eczema and Piles. Price 25c. at Jackson Drug Store, Spagnoli Prop.

The New High School Law.

The new law in regard to high schools which was passed by the last legislature is causing lots of trouble in some quarters. The law provides that school districts which are not included in any high school district in the county shall pay their pro rata of cost for educating their high school pupils who attend other high schools in the county. and this is just what is troubling county auditors and others--to know just how much to tax these other school districts, and how to go about it. following is the section of the law which is making all the trouble:

"Section 1795. Not later than the first Monday in September of each year the superintendent of schools of each county in which there is not a county high school shall certify to the board of supervisors and to the county auditor of such county the total net cost for the preceding year of educating all high school pupils residing in such county and not in any high school district, and the estimated amount needed for that purpose for the current year.--Echo.

Preliminary Examination

Sheriff Jones went to Mokelumne Hill to-day, Friday taking Harry Williams and J. H. Donnellson, the two men arrested last week in Jackson on the charge of stealing mill plates from the Del Monte mine, between Railroad Flat and Rich Gulch. Both men have made a full confession. Williams was the first to fall down, going with the officers to where the plates had been concealed, not far from the mine. Sheriff Jones of this county had been notified of the robbery, and worked with sheriff Gregory of Amador in locating the thieves. The examination will be a mere formality, as both men have agreed to sign the statement of their connection with the theft, and they will be hoped to connect the men with other robberies, and with a gang that has been operating all along the mother lode, stealing copper plates from suspended mills.--Prospect.

The Ledger has received word from San Andreas that both defendants plead guilty. They were, sentenced this morning to one year each in the penitentiary.

Rev. D. M. Marshman has left Ione, and the Presbyterian church is without a pastor.--Echo.

A pretty wedding was solemnized on Wednesday, July 28th, at the German Lutheran parsonage in Sacramento, when J. D. Meiss and Miss Minnie Panning were united in the holy bonds of matrimony. Rev. Chas. F. Oehler officiating. The bride was attended by Miss Julia Meiss, a sister of the groom, while Henry Panning, a brother of the bride, acted as groomsmen. The groom is a son of Chris. Meiss of Carbondale, but for the past two years has been a resident of Sacramento. The bride is the youngest daughter of Henry Panning, a prominent citizen of Brighton, and both young people have the best wishes of a host of friends in Amador and Sacramento counties. After a brief honeymoon at Lake Tahoe, they will make their home in Sacramento.--Echo.

Washington's Plague Spots.

lie in the low, marshy bottoms of the Potomac, the breeding round of malaria germs. These germs cause chills, fever and ague, biliousness, jaundice, lassitude, weakness and general debility and bring suffering or death to thousands yearly. But Electric Bitters never fail to destroy them and cure malaria troubles. "They are the best all-round tonic and cure for malaria I ever used," writes R. M. James, of Lovell, S. C. They cure Stomach, Liver, Kidney and Blood Troubles and will prevent Typhoid. Try them, 50c. Guaranteed by Jackson Drug Store, Spagnoli Prop.

Order to Show Cause.

In the superior court of the county of Amador, state of California.

In the matter of the Estate of A. M. Vaughan, deceased.

H. E. Potter, the administrator of the estate of A. M. Vaughan, deceased, having filed his petition herein praying for an order of sale of the whole of the real estate of said decedent, for the purposes therein set forth, it is, therefore, ordered by the judge of said court, that all persons interested in the estate of said decedent, appear before the said superior court, on Monday, the 13th day of September, 1909, at 10 o'clock in the forenoon of said day, at the courtroom of said superior court at the court house in the city of Jackson, county of Amador, to show cause why an order should not be granted to said administrator to sell the whole of the real estate of the said decedent, at either private or public sale, as said administrator shall judge to be most beneficial for said estate; and that a copy of this order be published at least four successive weeks in the Amador Ledger, a newspaper printed and published in the city of Jackson, county of Amador, state of California.

Dated, August 12, 1909.

FRED V. WOOD, au13 Judge.

A \$100 Typewriter for 17 cents a Day

Please read the headline over again. Then the tremendous significance will dawn upon you. An Oliver Typewriter--the standard, visible writer--the \$100 machine--the most highly perfected typewriter on the market--yours for 17 cents a day!

The typewriter whose conquest of the commercial world is a matter of business history--yours for 17 cents a day!

The typewriter thus equipped with scores of such conveniences as--"The Balance Shift," the "Railing Device," the "Double Release," the "Locomotive Base," the "Automatic Spacer," the "Automatic Tabulator," the "Disappearing Indicator," the "Adjustable Paper Fingers," the "Scientific Condensed Keyboard," all

Yours for 17 Cents a Day!

We announced this new sales plan recently, just to feel the pulse of the people. Simply a small cash payment, then 17 cents a day. That is the plan in a nutshell.

The result has been such a deluge of applications for machines that we are simply astounded.

The demand comes from people of all classes, all ages, all occupations.

The majority of inquiries have come from people of known financial standing who were attracted by the novelty of the proposition. An impressive demonstration of the immense popularity of the Oliver Typewriter.

A startling confirmation of our belief that the Era of Universal Typewriting is at hand.

A Quarter of a Million People are Making Money with

The OLIVER Typewriter

The Standard Visible Typewriter

The Oliver Typewriter is a money-maker, right from the word "go!" So easy to use that beginners soon get in the "expert" class. Earn as you learn. Let the machine pay the 17 cents a day--and all above that is yours.

Wherever you are, there's work to be done and money to be made by using the Oliver. The business world is calling for Oliver operators. There are not enough to supply the demand. Their salaries are considerably above those of many classes of workers.

An Oliver Typewriter in every Home

That is our battle cry today. We have made the Oliver supreme in usefulness and absolutely indispensable in business. Now comes the conquest of the home.

The simplicity and strength of the Oliver fit it for family use. It is becoming an important factor in the home-training of young people. An educator as well as a money maker.

Our new selling plan puts the Oliver on the doorstep of every home in America. Will you close the doors of your home or office on this remarkable Oliver opportunity?

Write for further details of our easy offer and a free copy of this new Oliver catalog. Address
